

# Certificate

according to the  
Revised Renewable Energy Directive (RED III)

(Directive (EU) 2023/2413 of the European Parliament and of the Council of  
18 October 2023 amending Directive (EU) 2018/2001)

**Certificate Number: EU-ISCC-Cert-CZ208-18105939**

**TÜV SÜD Czech s.r.o.**  
Novodvorská 994, 142 21 Prague 4, Czech Republic

certifies that

**FERSTAR AGRO s.r.o.**  
Pobřežní 28, 537 01 Chrudim - Chrudim IV, Czech Republic

complies with the requirements of the certification system

**ISCC EU**  
**(International Sustainability and Carbon Certification)**  
and the requirements of the RED III.

Place of the audit

(if different from the legal address of the system user as stated above; only applicable for  
traders and traders with storage):

n.a.

**This certificate is valid from 02.09.2025 to 01.09.2026.**

The site of the system user is certified as:

First gathering point  
Trader

Prague, 02.09.2025

Place and date of issue

Stamp, Signature of issuing party

The issuing Certification Body is responsible for the accuracy of this document.

Version / Date: 1 (no adjustments) / 02.09.2025

TÜV SÜD Czech s.r.o. • Novodvorská 994 • 142 21 Prague 4 • Czech Republic • [certification.cz@tuvsud.com](mailto:certification.cz@tuvsud.com)

## Annex to the certificate:

### Sustainable materials handled by the certified site

(This annex is applicable for all scopes except Trader, Trader with storage, Warehouse, Logistic centre, MTBE and ETBE plant)

This annex is only valid in connection with the certificate:

**EU-ISCC-Cert-CZ208-18105939 issued on 02.09.2025**

| Input material                                                                                                                                                                                                                                                                                                                                                                                               |                       | Output material |                       | GHG option <sup>1)</sup> | Criteria of raw material certification <sup>2)</sup> | Add-ons (voluntary) <sup>3)</sup> |

| * Please indicate which scope(s) handle the material in case the certificate covers more than one scope. This does not apply for the following scopes: Trader, Trader with storage, Warehouse, Logistic Center, MTBE and ETBE plant                                                                                                                                                                          |                       |                 |                       |                          |                                                      |                                   |
| 1) 1: Default value                                                                                                                                                                                                                                                                                                                                                                                          |                       |                 |                       |                          |                                                      |                                   |
| 2: Actual value                                                                                                                                                                                                                                                                                                                                                                                              |                       |                 |                       |                          |                                                      |                                   |
| 3: NUTS2 value or "NUTS2-equivalent" value. A "NUTS2-equivalent" value is a GHG value for cultivation in a "NUTS2-equivalent" region of a country outside the European Union (values are implemented by the European Commission). Option 3 is only applicable for the level of cultivation, i.e. for first gathering points, farms/plantations, central offices (group of farms or independent smallholders) |                       |                 |                       |                          |                                                      |                                   |
| 2) A: The raw material meets the definition of waste or (processing) residue according to the RED III                                                                                                                                                                                                                                                                                                        |                       |                 |                       |                          |                                                      |                                   |
| B: The raw material complies with the relevant sustainability criteria according to Art. 29 (2)-(7) RED III                                                                                                                                                                                                                                                                                                  |                       |                 |                       |                          |                                                      |                                   |
| 3) ISCC EU add-ons (voluntary application, see <a href="http://www.iscc-system.org">www.iscc-system.org</a> for further information):                                                                                                                                                                                                                                                                        |                       |                 |                       |                          |                                                      |                                   |
| <ul style="list-style-type: none"><li>• 202-04: Food Security Standard</li><li>• 202-09: EU Deforestation Regulation (EUDR)</li><li>• 205-03: Non GMO for food and feed</li><li>• 205-04: Non GMO for technical markets</li></ul>                                                                                                                                                                            |                       |                 |                       |                          |                                                      |                                   |
